

Company Profile

Sea to Sky Pollution Solutions Corporation ("Sea to Sky") is a global consortium based in Vancouver, Canada that includes a network of leading environmental technology developers, marine and aerospace manufacturers and environmental stewards to serve the maritime community and Sea to Sky's stakeholders.

We are the preeminent world leader in the development of pollution mitigation and monitoring systems for the marine industry. We design innovative, integrated system-based solutions that eliminate the environmental impact of marine vessels. Our slogan *"Breathe Easy- the Coast is Clear"* reflects our mission to eliminate discharges of effluents into the *Sea* from marine vessels while simultaneously, and perhaps more importantly, reducing the NOx and particulate matter (PM) emissions they put into the *Sky*.

Given the urgent need for new pollution mitigation technologies to protect our environment from toxic marine emissions and discharges, Sea to Sky Pollution Solutions' proprietary pollution mitigation and monitoring system-based solutions are the right products, in the right place, and just in time.

Breathe easy - the coast is clear.

Eric Hutchingame, President

Based on the belief that Entrepreneurialism and Environmentalism are not opposing values, Eric Hutchingame founded Sea to Sky Pollution Solutions Corporation to adopt and adapt proven technology to find Pollution Solutions for the Marine Environment from Sea to Sky. Mr. Hutchingame is a successful entrepreneur with 25 years of experience developing and marketing proprietary products on a global basis for early stage companies that serve international markets by developing financial partnerships and strategic joint ventures. For the last five years he's served as the President of Hutchingame Growth Capital Corporation ("HGC"). HGC specializes in assisting early stage companies with high growth potential by structuring financial partnerships and joint ventures. HGC has also operated as a lender of last resort and merchant banker for the client companies it restructures. Mr. Hutchingame graduated from Algonquin College's Three Year Business Administration Program (Marketing) in 1978 and became a member of the Canadian Institute of Marketing in 1983 where he served as National Vice Chairman, Membership and Accreditation.
